The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/525,581	<b>Applicant(s)</b> DOUGLAS ET AL.	
	<b>Examiner</b> Mark Rosenbaum	<b>Art Unit</b> 3725	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 112***

Claims 2,9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 2, line 7 'the crusher section' has no proper antecedent basis. In claims 9, last line, the parenthesis should be deleted to avoid any confusion as to what is being positively claimed.

### ***Claim Rejections - 35 USC § 103***

Claims 1,2 4-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP in view of either Frick or Conner '967. EP discloses the basic apparatus including separate subassemblies. No articulating means are provided which limits apparatus versatility. Both secondary references show the use of articulating means to aid in apparatus movement. In order to increase apparatus versatility, it would have been obvious for one of ordinary skill in the art to modify EP by providing articulating means, taught to be desirable by Frick and Conner '967.

### ***Response to Arguments***

Applicant's arguments filed 4/2/09 concerning the claims rejected above have been fully considered but they are not persuasive. The secondary references broadly

Art Unit: 3725

show the use of a single articulating means to improve apparatus movement. This is the basic invention in the rejected claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
